## What job i'm looking for? My positive points

Good day. I'm keen on a Security Officer role, especially in high-risk environments like retail, industrial facilities, or critical infrastructure — similar to my experience at Fidelity, Himax, and Empite. My strengths align directly with protecting people and assets in SA's challenging security landscape:

### > Risk Reduction & Loss Prevention:

At Fidelity Security Services, reduced risks for a retail store by combining CCTV monitoring, floor patrols, and staff training. I reduced inventory shrinkage through daily inspections of fitting rooms and stockrooms — crucial in SA's high-theft retail environment.

### > Adaptability Across Sectors:

secured diverse sites: from clothing stores to meat plants (Himax Security) and water treatment facilities (Empire Protection Services). At Himax, I handled livestock compliance, refueled vehicles safely, and supported weighbridge ops — showing I 'make a plan' beyond basic security.

### > Vigilance & Technical Alertness:

spotted operational threats early. At Empire Protection Services, reported water process irregularities like leaks during patrols. At Himax, I ensured sanitation protocols during livestock transport — preventing hazards before they escalate.

### > Trustworthiness & Compliance:

Enforced protocols firmly but fairly. My Fidelity manager trusted me to train staff on emergency response. I adhere to safety standards strictly — like when refueling hazardous diesel at Himax with zero spills.

PSIRA-registered Grade B, physically fit for long shifts, and ready to bring my hands-on experience to protect your site.
