Curriculum Vitae (CV)

What job i'm looking for? My positive points

The Technology Behind the Hume Health Body Pad

The Hume Health Body Pad integrates bioelectric therapy—a form of treatment that uses electrical impulses to stimulate muscles, nerves, and tissues. This technology has been used in various medical treatments for decades, but the Hume Health Body Pad brings it into a consumer-friendly form that can be used at home or on the go.

The pad works by sending electrical signals through the skin to activate the body's cells and tissues, encouraging them to heal naturally. The electrical impulses mimic the body's own electrical signals, helping to reduce pain, improve circulation, and promote tissue regeneration. These effects are similar to those achieved through TENS (Transcutaneous Electrical Nerve Stimulation) therapy, which is commonly used for pain management

Preferred occupation Beauty therapist
Beauty industry jobs

Preferred work location Frankfort
Free State

Contacts and general information about me

Day of birth 2001-01-07 (25 years old)

Gender Male

Residential location Bloemfontein
Free State
