What job i'm looking for? My positive points

The type of job I'm looking for is one that will earn me some experience as I currently have little to no work experience but I know I have good qualities for Team work , working with and around people. I am a very stern person who loves people and everyone gravitates towards me because of my personality, I work very hard while believing in completion so if I start something I make it my goal to get it done properly at that. Thank you
