Curriculum Vitae (CV)

What job i'm looking for? My positive points

I'm looking for any job, I am in no state to choose right now but I seek for any job that a matriculant can do even though it doesn't fit my qualifications but it's one of my preferred occupations above I would gladly accept it. cleaner, cashier, nanny and waitress I can do best on this ones since I recently finished school and have no experience in the world of work and, natural a hard worker and can do hand labour as it's in me and does not require knowledge for that . I'm excellent in Life sciences, geography, mathematics and moderately good in physical science and due to this qualities I have in this subject I wouldn't mind being a tutor to struggling learners who needs help. I'm not choosy, I'm consistent, punctual, respectful, optimistic and persistent. Good communication skills and basic mathematics skill. I can use a computer and laptop Even though I didn't learn that from school it's basic knowledge from home schooling . I'm currently in a gap year but fighting to go to university and which is why I need a job so I can save to help at home and use some to assist me through my studies when I get admission to university and also pay for NBT and application fees if needed.
