Preferred occupation **Waiters, waitresses**
 Restaurant, bar service jobs

Preferred work location **Johannesburg**
 How The Optivell Works **Gauteng**

The Optivell works by supplying the eyes with nutrients that are scientifically associated with visual function and eye protection. Its approach focuses on three core mechanisms:

Day of birth 2000-05-14 (25 years old)
 1. Nutritional Support – Providing vitamins, minerals, and antioxidants that the eyes need for

Gender Female
 optimal function.

Residential location Orkney
 2. Protection Against Oxidative Stress – Helping neutralize free radicals that can damage eye cells.

Telephone number 3. Support for Visual Performance – Aiming to improve clarity, focus, and comfort, especially during screen use.

 consistent use.

Key Ingredients in The Optivell

The effectiveness of any supplement depends largely on its formulation. While exact ingredient lists may vary, The Optivell generally contains a blend of nutrients commonly associated with eye health.

Lutein

Lutein is a carotenoid found naturally in the retina. It helps filter harmful blue light and supports visual clarity. Lutein is widely recognized for its role in maintaining healthy eyesight, especially as people age.

Zeaxanthin

Often paired with lutein, zeaxanthin supports macular health and helps protect the eyes from oxidative damage. Together, these two compounds are essential for maintaining sharp and comfortable vision.
