Curriculum Vitae (CV)

## What job i'm looking for? My positive points

I am young lady aged 22 attending the National University of Science and Technology. The university requires that one acquires an internship in the course they are willing to major in for a period of 10 - 12 months. I am currently in my second year in Applied Biology and Biochemistry and determined to learn and acquire experience in my field in order to increase my capacity.

I would be a perfect candidate as I easily grasp concepts and am very eager to learn new things. I am completely invested in my field and therefore would be invested in your business just as much. I would be a great asset.
