Curriculum Vitae (CV)

What job i'm looking for? My positive points

I'm a full-time student at Richfield Graduate Institute Of Technology currently studying DIT. I stay at Tembisa and use public transport to school everyday. This makes me be in the need of money. It is also my Mother's problem as she has to pay for my school fees, transport for me and for her and not to mention the fact that she's single with three children who depends on her. So finding a job, for me, I see it useful because i'll be able to maintain myself and somehow become independent and help my Mother so that she doesn't get pressurised in this whole issue.
