

Peason Kundishora

Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am looking for a job as an environmental officer. I have a Bsc in Geography and Environmental Studies. I studied it in Zimbabwe and have gone through SAQA evaluation. I can do Environmental Impact Assessment, carry out Management Systems, Environmental Evaluation, Project Management. It has been my passion to work with the environment especially knowing that our environment is vital in everything that we do in our communities. I would also be happy to work with the societies in educating them about the causes of environmental degradation and how best we can reduce it. As of now the world is being struck with climate change so it is a challenge that people should be taught and understand what it is and how to adapt to such situation. It is each and everyone's responsibility to make sure that the environment is kept clean and safe for all.

Preferred work location Gauteng
