

Mxolisi Mncube

Curriculum Vitae (CV)

What job i'm looking for? My positive points

Electrical Technician job or junior candidate engineer job.

I possess an in-depth knowledge of electrical systems, problem solving, plant management skills, telecommunication and basic computer science programming skills. I also possess basic skills in fibre optic cables, computer science programming (Visual Basics, Matlab and DigSilent) and tendering procurement.

I am fit to perform my role as a technician/engineer, i.e. to design, modify, maintain, and foresee plant equipment failures (breakdowns), to implement systems in place to ensure that corrective and future preventive actions are implemented. Lastly, to support production in the various ways:

Reliable: Provide maximum plant uptime by eradicating root cause plant equipment failures.

Safe: Adhere to practices that will ensure a safe working environment and comply with the OHS ACT.

Good Quality: Compliance to ISO 9001: 2000

No Harm to Environment: Compliance to ISO 14001: 2000

Cost Efficient: Utilize all resources in a sensible manner.

My strengths lie in having a positive and professional work ethic, an ability to multitask and to effectively delegate and communicate tasks to co-workers to keep them motivated and updated to pursuit a common goal.

I am determined to work as a loyal and professional astute engineering professional who will continuously seek to achieve both personal and organisational objectives. I am keen to develop my career further; I am also willing to work overtime and technician's back up and to migrate to any province. I am also willing to start immediately.

Sincerely yours,

Mxolisi Richard Mncube
