Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am a very reliable, dedicated young man. I think my ability with young kids is a unique skill. I have extensive experience in the world of schools and especially the sports field. I believe the fact that I have both taught and been in a sports department means that I understand the implications of getting a balance between the sports field and the classroom. I think my CV speaks for itself in this regard.

I have worked in both primary and high schools. I did this on purpose during my studies, in order to make sure I knew what ages I wanted to work with, and have decided that both have their positives.

I left the teaching world briefly, in search of "more" and the corporate world does not necessarily give you that at all. I know I made that mistake and it may take a while to get back into a school but it is my true desire. Its a lesson I needed to learn, as I now know that the "other side" is not any better.
