Curriculum Vitae (CV)

What job i'm looking for? My positive points

I have completed my National Diploma at Information Technology (System development: Information System, business Analysis and Software Development). I would like to take part in an Internship\Learnership vacancy available, I believe the company will offers great learning experience and expose me into different aspects of Information Technology (I.T) and it will be a great start to grow in my career as hungry to pursue my career in system development. With the knowledge I have acquired I believe I am fit and suitable for the position. I will be a productive learner as I am willing to learn and I am excited to be exposed onto the world of information & communication technology industry.

As an I.T graduate, I am familiar with Information Systems, Business Analysis and Software development, I have easy ways of solving problems and skills to integrate compatible developed software and I acquired Management knowledge. I am very excited about putting all the theoretical/practical knowledge I have acquired during my studies into a corporate world. During my previous level of studying I was required to develop business information system project and implement it using my knowledge I acquired, I not only learnt about systems development but I learnt much about system analysis, data collection, presenting my findings. I enjoy working in groups and I am excited about-facing new challenges as I am willing to learn. I am familiar with Windows Server Operating Systems software which are used for implementing system securities, As Additional to my Qualification I'm familiar with networking (CISCO: A+, N+, switching & Routing).

These are my programming languages I have completed: VB.Net, Ado.Net, Oracle Form and Report Development, SQL & PL/SQL, C# (console, Windows Form & Web Applications), (C++ console applications), PHP, SQL Windows Server & JAVA.
