Curriculum Vitae (CV)

What job i'm looking for? My positive points

I firstly wanted to be a PILOT, but I couldn't reach the requirements that were needed. I thought of taking short courses like nursing or paramedics or any other vacancies that are related to health. I need a job in order to structure my life, something that would wake me up in the morning knowing that there's something better and productive that I will be doing. I would like it for you to hire me, since well I'm very cooperative, determined and committed to what I want to achieve, and I also believe that it's nice to help people to help themselves.
