Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am a licensed journeyman electrician, having obtained the license after working under the supervision of a master electrician for the mandatory 4-year period, and also hold an associate's degree in electrical training.

I have had the opportunity of working under three accomplished master technicians during my career. The time spent under their supervision has allowed me to develop, fine-tune, and perfect skills required to perform important tasks such as preparing and implementing designs and plans of electrical wiring systems for commercial establishments and buildings. In addition, I am adept at locating and fixing faults as well as at performing all type of electrical maintenance tasks.

An eye for detail, ability to execute tasks as guided by a master technician, and a willingness to work in a team has kept me in good stead throughout my career. These skills, coupled with my superior job-related skills, I believe will help me become an in integral part of your team.

It will be a nice experience to work with a large organization as yours. If selected, I am sure, I will be able to forge a mutually-beneficial and long-lasting relationship with your team.

My resume, which I have attached with this application, will apprise you in further detail about my experience and skills. I hope you will consider my application and will give me an opportunity of an interview.
