Work from home : Typing, Data capturer

I worked in Document Control since 2006. Started as a Document Controller and worked myself up to a Document Control Manager. I also have experience in Reception, Switchboard, Office Admin, Personal Assistant and Secretarial. I enjoy working under pressure, strive at being punctual, neat, uphold company policies and procedures.

I have always had an interest in the responsibility of this career and in assisting all personnel with required information and documentation. Ensuring that the privacy and confidentiality of all documentation is one of my strong suits. I also enjoy all the challenges, problem solving, using my own initiative and working independently. As the Document Control is the heart of any company.

I achieved the goals I set for myself, by starting as a Site Secretary and worked myself up to a Document Control Manager and in the process gained experience in various QA/QC Documentation and Personal Assist to the Project Manager. I created ways to improve "on hand" documentation and drawings for Site for quicker and easier retrieval without having to use the network.
