Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am an experienced IT Manager / Technician and thrive on new developments within the Information Technology field. I have managed and maintained IT infrastructure/s and reported system requirements directly to Management.

As an IT Manager / Technician I managed system development projects, resolved software and hardware issues and was responsible for the setting up, testing and running of required systems while taking all financial implications into account.

I am loyal, committed and competent and take ownership of equipment and systems with confidence to ensure and enhance system continuity. It is easy for me to adapt to new ideas and technologies when I believe that it is going to enhance performance improvement.

I have a preference to work with tasks and objects and own my job. I also believe that people must be empowered to help themselves.

Walking the extra mile comes natural to me and I am also easy to work with
