Curriculum Vitae (CV)

What job i'm looking for? My positive points

I initially want to go into business administration, I am starting my online business degree mid this year. I'm honest and hardworking. My work comes first and I am very detail oriented as well excellent with spelling and grammar. My current occupation is as an editor/publisher, which I believe makes me perfect for the job.

Although i am definitely willing to acquaint myself with new skills if necessary.

I am not area bound and I have no dependents. I also can work from where I am now (since I have a working computer and internet), but I am willing to move to where ever necessary.

I know I am young but I've learned to be responsible and goal driven and I will not settle for less than outstanding in any project I take on.
