What job i'm looking for? My positive points

I have a National Diploma in Management Accounting, I am currently looking for something that have to do with Finance, Cost Accountant. My positive points are: My problem has a solution; I will work on a plan, I may be one in 7 billion but I am also one in 7 billion, I can think from different perspectives quite easily, I adopt to new things and ideas very fast, my ability to learn fast has led to short attention span. So, although I learn fast, I don't learn a lot and lastly I adopt to new ideas so fast that I can't remain steady for a single moment.
