Katleho Mokoena

Curriculum Vitae (CV)

What job i'm looking for? My positive points

I have an immense desire to learn in a working environment with hands on experience i work well in a team as well as individually. I like accomplishing work goals that I am given and believe that I should work extremely hard to get my tasks accomplished and when done i allow myself to play. I believe that one should not only work hard but smart as well with intelligence to do whatever it may take to get the task in front of me accomplished. I am very hard working once i start something i want to make sure that i finish it and that i do well in that task I do not like sitting around doing nothing and strongly believe in making sure that those around me succeed with me and not me alone. i strongly believe in doing whatever needs to be done to make sure that the job gets done. I would be most happy finding a job in IT and Technology it is a huge positive for me I like innovation and using and finding new uses for technology.

Thank you for your consideration.
