Curriculum Vitae (CV)

What job i'm looking for? My positive points

I am currently unemployed, my last job was at Northern Cape where I worked as a Civil Supervisor for a period of 12 months at Enel Green Power in Renewable Power Plant. I have also worked as a Site Engineer at Aveng Grinaker-Lta for a period of 8 years and 2 months in Construction.

I have gained valuable experience in the following key areas:

- Planning, Leading, Organizing, Controlling and Managing,
- Application of technical knowledge,
- Negotiation and communication skills,
- Analysing project variations and
- Liaised with different stakeholders in the project.

This exhibits my competencies as a Civil Engineering Technician in planning, managing, leading, organizing, application of technical knowledge and analysing financial aspects of a project life cycle. I firmly believe that my knowledge and experience I have gained as Civil Engineering Technician will add value to the advertised position and ultimately your organization. I would appreciate the opportunity to join an esteemed and reputable construction firm as yours.

Looking forward to discuss more in person.
